# Seamless Integration via API's

You can easily find the data you need – and fast – at GC Partners. Our reliable API architecture allows you to configure our online bespoke payment solutions easily into your platforms. Embedding all we offer into your own systems. Seamlessly. With minimal fuss. For maximum reliability.

### Overview

API connectivity makes our investment and global payment systems easy. You benefit from secure automation and total access to the currency market.

Your client platform can be tailored to your needs and used in multiple ways. Our API allows for auto-verification of investors at the onboarding stage, allowing payments

to be received and processed in the shortest time.

Our API is secure. And evolving. Like the businesses we serve.

### Process

When you set up your account with GC Partners, you'll receive a unique API key and login credentials.

You can test our API and your systems in a sandbox environment with full access to API functions and capabilities. Once you're ready to go live, we'll put it into production – and your own portal is ready to use.
