Client Money and Investment Solutions

Managing Client money

We're here to make your operations more efficient, whether processing subscription or redemption payments, undertaking compliance and investor due diligence or simply holding your clients' funds in segregated client bank accounts. See a clear audit trail of inbound and outbound transactions – related specifically to your client.

Dual bank accounts can be set up for investor money, ideal for bond and fund investments where separate accounts for subscription and cleared funds are required.

Regulation

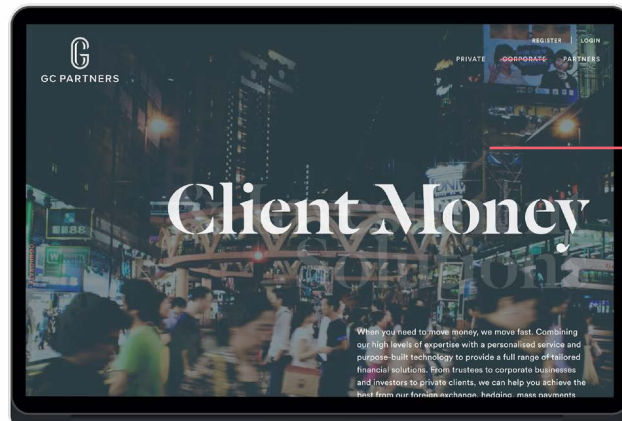

We are able to offer these services as we're one of the few specialist service providers to be granted additional Part IV permissions by the FCA, under the FSMA 2000. This means we have full client money permissions,

adhering to stringent regulations and have robust internal controls in place to safeguard your funds. We operate to client money rules defined by the FCA and Client Assets Sourcebook (CASS) regulations.

We keep your clients' money safe. Full stop.

Process

Once set up, these services are accessible via our portal. Should you need a seamless integration into your platform you can use our API suite, giving efficiency and scalability to deal with high volume of payments from your investor community across the world. You get real-time access to cleared funds.

GC PARTNERS

Functions

- We undertake investor due diligence under anti-money laundering (AML) guidance and Know Your Customer (KYC) checks using the latest verification software.
- Client accounts are reconciled continuously throughout the day due to regulatory requirements, providing visible real-time balances and the ability to produce calculations on demand.
- Track in and outbound transactions and monitor accounts with ease.
- Receive full accounting reports for receipts, payments, allocations, and balances.
- Receive email & audit trail reports daily of all new funds, both cleared and uncleared.
- Seamlessly integrate into your platform via our API suite.

Investment flow example

KYC checks performed.
Cleared funds moved to Trading/Fund Account

Security

Security and compliance is of paramount importance to GC Partners. We adhere to stringent regulations and have robust internal controls in place to safeguard your funds and minimise any risks to the business or your money. All transactions are initiated using a secure payment system which ensures each payment is approved internally by multiple users and processed by our Tier 1 banking partners. We don't speculate on the currency markets. Or invest your money overnight. When you enter into a transaction with us, we enter a matching, irrevocable binding trade with our bank. Client money is held in segregated client accounts known as 'safeguarding' accounts, using our global Tier 1 banking partners. It means all client funds are held separately from any company money or assets in order to comply with regulations. GC Partners is independently audited each year by 3rd party compliance & Client Money (CASS) specialists to ensure that all processes, procedures and controls are in line with FCA guidelines. The UK CASS rules are amongst the most stringent in the world in regards to how client money is reconciled and reported both internally and externally. GC Partners has Professional Indemnity (PI), Directors and Officers, and Cyber insurance. Certificates available on request.
